## A Christmas Eve Supper

By Katharine Fisher

Director, Good Housekeeping Institute

Christmas Eve always has been for me the high point in the holiday festivities, a time when all our preparations seem to work up to an ecstatic climax. Tomorrow is Christmas! Everyone is hurrying away from work early, friends are dropping in with gay packages, and the familiar handwritings on the mounting pile of Christmas mail seem like friendly handclaps that bridge the miles between old friends.

There is usually some last-minute shopping to be done, and later, as the dusk descends over this great city, the tall Christmas trees at Radio City become jeweled with lights that shed their radiance on the vast choir singing the old, familiar Christmas carols. What a lovely Christmas scene it is! "It came upon a midnight clear"—we all join in the singing. The Christmas spirit has taken possession of us.

Usually I keep open house on Christmas Eve, but last year I spent it at the home of a friend. An informal supper by the fireside took the place of dinner, and my hostess has graciously allowed me to pass on to you her simple menu with the recipes. As she, too, always keeps open house on Christmas Eve, she decided on a one-dish casserole meal. (Casserole meals are so easy to serve and to keep hot, and a second course can be ready in the kitchen.) With this meal she served a delicious coffee cake. And mugs of steaming hot mulled cider soberly took the place of the ancient wassail bowl. For dessert there was fruit. The Christmas spirit has taken possession of us, and here are the recipes which made it so delicious.

### TUNA FISH AND EGG CASSEROLE

(Tested by Good Housekeeping Institute)

Use Institute-approved Measuring Cups and Spoons. Measure level.

2 Tsp. cream (1 c.) tuna fish  
 2 Tsp. lemon juice  
 4 sliced, shelled, hard-cooked eggs  
 1 c. cooked peas  
 4 Tsp. butter or margarine  
 4 Tsp. flour

Drain the oil from the tuna fish and reserve. Flake the fish and add the lemon juice. Arrange the fish, eggs, and peas in alternate layers in a greased 1 1/2 qt. casserole. Melt the butter in a double boiler. Add the flour, then blend. Add the milk, seasonings, and cheese, and cook over boiling water, stirring constantly until thick. Pour over casserole mixture, and top with bread crumbs to which the tuna-fish oil has been added. Bake in a moderately hot oven of 375° F. about 25 min., or until the crumbs are a golden brown. Serve 6 heartily.

### BRESLAUER COFFEECAKE WHEELS

(Tested by Good Housekeeping Institute)

Use Institute-approved Measuring Cups and Spoons. Measure level.

1 c. butter or margarine  
 1/2 c. granulated sugar  
 3/4 tsp. salt  
 2 Tsp. grated lemon rind  
 1 egg, well beaten  
 1 compressed yeast cake  
 1 c. light sour cream

Cream the 1 c. butter, add the 1/2 c. granulated sugar, and cream thoroughly. Add the salt, lemon rind, eggs, and yeast cake, which has been dissolved in the sour cream. Blend well. Add the flour and mix thoroughly. Cover, and chill in the refrigerator for 2 hours. Remove from the refrigerator and let rise for 1 1/2 hrs. Then roll dough on a lightly floured board to about 1/4" thickness. Cover bottom of a 9" x 12" x 1 1/2" pan with the melted butter and brown sugar which have been floured. Spread the surface of the dough with the remaining ingredients, which have been mixed together. Roll up as you would a jelly roll, pressing the edges together firmly. Cut crosswise into slices 1/2" thick, using a sharp knife or one which has been floured. Arrange slices on top of butter and brown sugar mixture. Cover with a clean cloth and let rise in a warm place (75° to 85° F.) until light. Bake in a moderately hot oven of 375° F. for 35 min. Serve warm. Makes 20 coffeecake wheels.

### MULLED CIDER

(Tested by Good Housekeeping Institute)

Use Institute-approved Measuring Cups and Spoons. Measure level.

1 qt. sweet cider  
 5 whole cloves  
 2 whole allspice  
 2" piece stick cinnamon

Mix all together and heat, stirring often, for about 15 min. over low heat. Strain and serve warm. Serves 6.

 These words of the Psalmist, "All thy works shall praise thee, O Lord; and thy saints shall bless thee. They shall speak of the glory of thy kingdom, and talk of thy power," are the Golden Text in the Lesson-Sermon on Sunday in all Churches of Christ, Scientist. The question, "Is the Universe, Including Man, Evolved by Atomic Force?" is the subject.  
 Paul's words to the Corinthians are included in the Lesson-Sermon: "For God, who commanded the light to shine out of darkness, hath shined in our hearts, to give the light of the knowledge of the glory of God in the face of Jesus Christ. . . . For which cause we faint not; but though our outward man perish, yet the inward man is renewed day by day. For our light affliction, which is but for a moment, worketh for us a far more exceeding and eternal weight of glory; while we look not at the things which are seen, but at the things which are not seen: for the things which are seen are temporal; but the things which are not seen are eternal."  
 Among the passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy are the statements: "Man is, and forever has been, God's reflection. God is infinite, therefore ever present, and there is no other power or presence. Hence the spirituality of the universe is the only fact of creation."

## POSTMASTER COMMENDS YULE SEALS

Indications point to a new high in the volume of Christmas mail to be handled through the Torrance post office this year, according to Postmaster Earl Conner. For this reason the plea is made that all packages be mailed at once, especially for eastern and middle-western points.

"It is gratifying to note that many Torrance residents are getting their holiday mail out early," states Postmaster Conner, "and also that the majority of letters and packages are generously covered with the familiar little Christmas Seal with the crimson double-barred cross which helps to finance the program of tuberculosis prevention carried on by the Los Angeles County Tuberculosis and Health Association.  
 "As postmaster, I am particularly interested in the Christmas Seal which was originated in 1903 by Einar Holboell, a postal clerk in Copenhagen, Denmark, for the purpose of raising funds for children suffering from tuberculosis. The Christmas Seal has since encircled the world and is being used in the United States to help finance tuberculosis preventive work in every state in the union.  
 "I should like to see every piece of mail going out through this post office decorated with Christmas Seals, except on the address side, which must be left free of any stamp other than that of the post office department."  
 Residents of Torrance who desire additional Christmas Seals or did not receive them through the mail can secure them locally at the Torrance Health Center.

**UNLUCKY 13**  
 December with its rain and early darkness requires extra caution on the part of both motorists and pedestrians. That 13 was unlucky for motorists and pedestrians last December is seen in the National Safety Council's figures of 3,420 killed in traffic during that month—one every 13 minutes!

**ASSEMBLY OF GOD**
